AT OLD HOME OF JOHN C. CALHOUN.

INCORPORATED 1889.

Fort Hill, Pickens Co., S. C., April 14<sup>th</sup> 1892

Col. R. W. Simpson,

Dear Sir:

Stack to chimney has  
been carried nearly to <sup>level of</sup> top of dormitory.  
Work on inside of kitchen has progressed  
on floor and ceiling. The laying of  
the large sewer pipe to receive the  
down spouts has progressed on the dormitory.  
The work on lathing the balance of inside  
of dormitory is now being carried on and  
the sloping of area around dormitory  
front has been begun. Will continue work  
on inside of chapel & main building when  
driven from outside by falling rain. We  
can still keep the whole force of emmets  
at work rain or shine, using them

when weather permits on farm, and  
changing to buildings outside or inside  
just as we can. We have not been able  
to get into the bottoms with the ploughing,  
to use in this way for the first time the  
carriets, as it continues too wet.

Yours truly,

H. W. Stone
