

RECREATION AND PARK ADMINISTRATION

The curriculum in Recreation and Park Administration prepares students for a variety of careers in leisure-service agencies. The undergraduate curriculum is designed to provide a broad exposure to the social, physical and biological sciences as well as develop the basic knowledge and skills required to manage and administer leisure-service resources.

Flexibility within the curriculum is achieved by permitting the student to select coursework from among several emphasis areas that include Community Leisure Services, Recreation Resource Management, and Therapeutic Recreation. The latitude in selection permits maximum accommodation of the individual student's interests and professional career objectives. Students may complete requirements for a minor which is appropriate to his/her emphasis area.

Graduate study leading to a Master of Recreation and Park Administration degree is also offered by the Department.

The Recreation and Park Administration program is accredited by the National Council on Accreditation of the National Recreation and Parks Association.

FRESHMAN YEAR

First Semester	Second Semester
BIOL 103 General Biology I 3 (3,0)	BIOL 104 General Biology II 3 (3,0)
